

**M**ake a difference in a child's life. Let them know you care. Your small act of kindness is a monumental event in the life of our troubled youth. Over 300 children will spend the holidays in our juvenile detention facilities, with none of the comforts of home. Your contributions or donated gift items can help. Show these kids that the community cares, by bringing a little bit of cheer to their surroundings.

## ***Financial contributions gratefully accepted!***

## The Juvenile Hall Auxiliary

The Juvenile Hall Auxiliary is a non-profit organization giving young men and women in the juvenile justice system a second chance. Through donations and the efforts of volunteers, the Juvenile Hall Auxiliary provides scholarships, internships, career development, educational services, mentoring, and financial assistance to the young people who need it the most. Our programs reduce recidivism by forming positive relationships, arming them with the skills they need for a fighting chance, and offering assistance at every step of their re-entry into society. Since 1955, our support has enabled them to follow their dreams to become pilots, teachers, business owners, and even members of law enforcement.
